Notes to the Condensed Interim Consolidated Financial Statements

Three and nine months ended May 31, 2019 and 2018

(Unaudited - Expressed in Canadian Dollars)

1. NATURE OF OPERATIONS AND GOING CONCERN

National Access Cannabis Corp., formerly Brassneck Capital Corp. (“NAC” or “the Company”) was incorporated under the name Brassneck Capital Corp. pursuant to the provisions of the Business Corporations Act (Alberta) on June 18, 2015. The head office of the Company is located at Suite 200, 56 Aberfoyle Crescent, Toronto, Ontario M8X 2W4. The registered office of the Company is located at 1900, 520 3rd Avenue SW, Calgary, Alberta, Canada T2P 0R3.

The Company was a Capital Pool Company (“CPC”) as defined pursuant to Policy 2.4 of the TSXV. Pursuant to the terms of an amalgamation agreement dated July 10, 2017 between Brassneck Capital Corp., National Access Cannabis Corp. (NAC) and 1119622 B.C. Ltd. (Subco), a wholly owned subsidiary of Brassneck Capital Corp., NAC and Subco amalgamated under the Business Corporations Act (British Columbia) to form a new company under the corporate name National Access Clinic Corp. (Clinic Corp). Clinic Corp. will carry on the business previously carried on by NAC as a subsidiary of the Company. On August 30, 2017, as part of the Qualifying Transaction (described in the following paragraph), Brassneck Capital Corp. amended its articles to complete a share split of all of its issued and outstanding Common Shares and all outstanding options and warrants to purchase Common Shares on the basis of 1.205 post-Share Split Common Shares for every 1 pre-Share Split Common Share. Also, on August 30, 2017, as part of the Qualifying Transaction, Brassneck Capital Corp. changed its name to National Access Cannabis Corp.

The Company's common shares are listed on the TSX Venture Exchange (“TSXV”), under the trading symbol “META”.

The Company and its subsidiaries are in the business of operating retail locations to sell and distribute cannabis and cannabis related products, effective October 2018 with the Cannabis Act coming into force. The Company also operates in the medical cannabis market by providing cannabinoid education and introducing patients to medical cannabis treatments via its national network of physicians and health professionals.

Going Concern Assumption

These interim condensed consolidated financial statements for the period ended May 31, 2019 have been prepared on the going concern basis, which assumes that the Company will continue to operate for the foreseeable future and will be able to realize its assets and discharge its liabilities in the normal course of business.

The Company is in the development stage of expanding by opening and acquiring cannabis retail locations throughout Canada. While these financial statements have been prepared on a going concern basis, the Company continues to remain dependent on its ability to obtain sufficient funding to sustain operations and continue with its current expansion projects. While the Company has been successful in raising financing in the past, there can be no assurance that it will be able to do so in the future. Several alternatives are being evaluated with the objective of funding ongoing activities and obtaining additional working capital. The continuing operations of the Company are dependent upon its ability to raise adequate financing and to commence profitable operations in the future and repay its liabilities arising from normal business operations as they become due. The Company has incurred losses since incorporation and as at May 31, 2019 has an accumulated deficit of \$37,616,014. These factors indicate a material uncertainty that may cast significant doubt about the Company being able to continue as a going concern.

The interim condensed consolidated financial statements for the period ended May 31, 2019 do not reflect adjustments that would be necessary if the going concern basis was not appropriate. Consequently, adjustments would then be necessary to the carrying value of assets and liabilities, the reported revenues and expenses and the balance sheet classifications used. Such adjustments, if required, could be material.

3. NEW STANDARDS AND INTERPRETATIONS TO BE ADOPTED IN FUTURE

At the date of authorization of these consolidated financial statements, the IASB and IFRIC has issued the following new and revised Standards and Interpretations.

IFRS 9 '*Financial Instruments: Classification and Measurement*' is required for reporting periods beginning on or after January 1, 2018 with retrospective application. IFRS 9 replaces the classification and measurement models in IAS 39 '*Financial Instruments: Recognition and Measurement*', with a single model under which financial assets are classified and measured at amortized cost, fair value through other comprehensive income or fair value through profit or loss. This classification is based on the business model in which a financial asset is managed, as well as its contractual cash flow characteristics, and eliminates the IAS 39 categories of held-to-maturity, loans and receivables, and available-for-sale. The Company has adopted IFRS 9 on September 1, 2018, and in accordance with the transition requirements, comparative periods have not been restated. The adoption of IFRS 9 did not have a significant impact on the carrying amounts of financial instruments as at September 1, 2018.

For all financial instruments, there are no significant changes in the classification and measurement of the Company's financial assets and financial liabilities and will continue to be measured on the same basis as is currently adopted under IAS 39. We have assessed the classification and measurement of our financial instruments under IFRS 9, with reference to the former classification under IAS 39, as follows:

Financial Assets	IFRS 9	IAS 39
Cash	FVTPL	FVTPL
Investments	FVTPL	FVTPL
Trade receivables	Amortized cost	Loans and receivables
Loan receivables	FVTPL or amortized cost	Loans and receivables
Financial Liabilities		
Trade and other payables	Amortized cost	Other financial liabilities
Debt financing	Amortized cost	Other financial liabilities
Convertible debt	Amortized cost	Other financial liabilities
Loans payable and other liability	Amortized cost	Other financial liabilities

In relation to the impairment of financial assets, IFRS 9 requires an expected credit loss model. The expected credit loss model requires an entity to account for expected credit losses and changes in those expected credit losses at each reporting date to reflect changes in credit risk since initial recognition. There have been no material changes in credit risk resulting in an impairment of financial assets.

IFRS 15 '*Revenue from contracts with customers*' was issued by the IASB in May 2014. The core principle of the new standard is for companies to recognize revenue to depict the transfer of goods or services to customers in amounts that reflect the consideration to which the company expects to be entitled in exchange for those goods or services. The new standard will also result in enhanced disclosures about revenue, provide guidance for transactions that were not previously addressed comprehensively (for example, service revenue and contract modifications) and improve guidance for multiple-element arrangements. The effective date is for annual periods beginning or after January 1, 2018.

This standard introduces a 5-step approach to revenue recognition:

- Step 1: Identify the contract(s) with a customer
- Step 2: Identify the performance obligations in the contract
- Step 3: Determine the transaction price
- Step 4: Allocate the transaction price to the performance obligations in the contract
- Step 5: Recognize revenue when the entity satisfies a performance obligation

3. NEW STANDARDS AND INTERPRETATIONS TO BE ADOPTED IN FUTURE (continued)

The Company has adopted IFRS 15 on September 1, 2018 using the modified retrospective approach where the cumulative impact of adoption will be recognized in retained earnings as of September 1, 2018 and comparatives will not be restated. The Company has completed its assessment of the impact from this new standard. Under IFRS 15, referral revenues earned from Licensed Producers are recognized over a period of time as the referred patients remain an active purchaser with the Licensed producer. Based on the Company's assessment, the application of IFRS 15 has not resulted in any change in the revenue recognition from the previous IFRS standard.

Cannabis and accessory revenues are recognized at the point when the control over the goods has been transferred to the customer. The Company transfers control and satisfies its performance obligation upon delivery and acceptance by the customer, which is consistent with the Company's current revenue recognition policy under IAS 18.

IFRS 16 'Leases' replaces IAS 17 'Leases' and introduces new rules for accounting for leases which will result in substantially all lessee leases being recorded on the consolidated statement of financial position. The standard is effective for annual periods beginning on or after January 1, 2019 with retrospective application and with early adoption permitted. The Company continues to assess this new standard and the potential impact to the consolidated financial statements.

(i) Impairment Loss

In 2018 the Company undertook a strategic shift with regards to its medical clinic operations and pivoting operations into partnerships with existing pharmacies with the anticipation of pharmacies receiving a license to dispense cannabis medicines. NAC proactively started to develop a synergistic cannabis program to ensure that NAC could take advantage of this future channel. To further enhance this strategic shift, NAC acquired 51% of Cannabis Care Group in April 2018. Following acquisition, CCG changed its name to National Access Cannabis Medical Inc. ("NACM").

As a result of the strategic shift, an impairment test was performed on the CGU's related to the existing seven medical clinics the Company operates (Victoria, Calgary, Saskatoon, Winnipeg, Toronto, Ottawa and

Halifax). In assessing if an impairment loss was required, the recoverable amount of each CGU was determined to be equal to its value in use. In estimating the value in use for each CGU, cash flow projections were prepared for a period of five years and discounted using a rate of 15%. Key assumptions that were used in the cash flow projections include using a growth rate of 2%; capitalization factor of 7.69 and applying a tax rate of 26.5%. The results of the cash flow projections indicated that the Victoria, Calgary, Saskatoon and Halifax clinic locations were impaired as their carrying value exceeded the respective recoverable value of the corresponding CGU. The resulting impairment that was recorded for each clinic was as follows: 1) Victoria – an impairment loss of \$125,000 was applied to leasehold improvements as no goodwill or other intangible assets with indefinite lives have been allocated to the CGU; 2) Calgary – an impairment loss of \$102,332 was applied to the carrying value of goodwill; 3) Saskatoon – an impairment loss of \$13,366 was applied to leasehold improvements as no goodwill or other intangible assets with indefinite lives have been

allocated to the CGU; and 4) Halifax - an impairment loss of \$80,055 was applied to leasehold improvements as no goodwill or other intangible assets with indefinite lives have been allocated to the CGU.

The total impairment loss for leasehold improvements and goodwill of \$320,753 has been recorded under Impairment loss on the Consolidated Statements of Loss as at August 31, 2018.

(i) Second Cup Strategic Alliance

On April 11, 2018, the Company entered into a strategic alliance with The Second Cup Ltd. ("Second Cup") to develop and operate a network of NAC branded recreational cannabis dispensaries initially across Western Canada, expanding to include additional provinces where legally permissible.

In consideration of Second Cup agreeing to enter into this strategic alliance, the Company issued warrants to purchase an aggregate of 5,000,000 common shares of the Company. The warrants have an exercise price of \$0.91 per common share and expire on April 11, 2023. The warrants were attributed a fair value of \$2,654,500 using the Black-Scholes option pricing model with the following assumptions: fair value of security of \$0.91; expected life of five years; \$Nil dividends; 70% volatility; and a risk-free interest rate of 1.60%.

The strategic alliance has been recognized as an Intangible Asset and is amortized over 19 months, the useful life in accordance with the terms of the agreement.

9. DEBT FINANCING

On July 20, 2018, the Company entered into a \$25,000,000 loan agreement with Opaskwayak Cree Nation ("OCN"). The loan had a six-month term and carried an interest rate of 10% per annum. On November 23, 2018 the Company fully repaid the outstanding OCN loan. The sum of the payout was \$26,716,197 which included the principal repayment of \$25,000,000 and \$1,642,857 in commitment fees. The balance of the payout included payments for interest and other payment obligations including legal fees, and other expenses.

On December 14, 2018, the Company entered into a \$9,000,000 loan agreement with OCN. The loan had a six-month term and carried an interest rate of 8% per annum payable monthly in arrears. In connection with the advance of the loan, the Company issued 900,000 warrants to OCN. Each warrant is redeemable for one Common Share in the capital of the Company at a price of \$1.08 per Common Share for a period of three years from the date of the loan agreement. On May 30, 2019, the Company converted its \$9,000,000 term loan with OCN, having a maturity date of June 14th, 2019 into an open line of credit. The line of credit carries an interest rate of 10% cent per annum with a December 14, 2019 maturity date.

The warrants issued were valued at \$186,732 using the Black-Scholes option pricing model and the following variables: exercise price of \$1.08; expected life of 3 years; \$Nil dividends, 74% volatility, and risk-free interest rate of 2.2%. The accreted interest was \$171,342 and recorded as accretion expense on the statement of net loss. Based on this calculation the liability component is valued at \$8,984,610 at May 31, 2019.

10. NOTE PAYABLE AND DUE TO SHAREHOLDERS

During the twelve months ended August 31, 2018, 2627639 Ontario Inc., a company controlled by a Director of the Company, and 2627786 Ontario Inc., a shareholder of the Company, each advanced a proportional share of \$115,000 in shareholder loans into NACM for a total of \$230,000. During the nine months ended May 31, 2019, an additional \$180,000 was advanced into NACM by 2627639 Ontario Inc. The shareholder loans are non-interest bearing and have no terms of repayment.

11. CONVERTIBLE DEBENTURE

On November 23, 2018, the Company completed a private placement offering of special warrants that entitle the holders to receive 8% senior secured convertible debentures of the Company upon exercise of the special warrants. 21,150 special warrants were issued at a price of \$1,000 per special warrant for aggregate gross proceeds to the Company of \$21,150,000. In consideration of the services provided by the agents under the offering, the Company paid the agents a cash fee equal to 6% of the gross proceeds of the offering.

The Convertible Debentures will bear interest at a rate of 8.00% per annum, payable semi-annually in arrears on May 31 and November 30 of each year, commencing May 31, 2019. The Convertible Debentures will be convertible at any time at the option of the holders thereof into common shares of the Company at a conversion price of \$1.08 per Common Share, subject to customary adjustment. The Convertible Debentures will mature on November 30, 2021.

The Company used the residual value method to allocate the principal amount of the convertible debentures between the liability and equity components. The Company valued the debt component of the convertible debentures by calculating the present value of the principal and interest payments, discounted at a rate of 18.5%, being management's best estimate of the rate that a non-convertible debenture with similar terms would earn.

The Company has allocated the proceeds from issuance between the estimated fair value of equity and debt components using an effective interest rate for the debt component of 18.5%. Based on this calculation, the liability component is \$16,509,147 and the residual equity component is \$3,555,448. As at May 31, 2019, the accreted interest on the debenture was \$717,978 and interest expense amounted to \$881,504.

Pursuant to the terms of the convertible debenture indenture governing the terms of the Convertible Debentures dated November 23, 2018, between the Company and TSX Trust Company, the Company had elected to satisfy the entirety of the current interest obligation due and payable on the Convertible Debentures in the amount of \$41.78 for each \$1,000 of Convertible Debentures (the "Current Interest Obligation") by the delivery of Common Shares. The Company issued 1,290,150 Common Shares in satisfaction of the Current Interest Obligation, which was equal to the volume weighted average price of the Common Shares for the ten consecutive trading days ending on May 28, 2019.

12. ACQUISITIONS (continued)

The share purchase agreement provides that for a period of up to five years, the Vendors shall be entitled to receive up to \$6,080,000 of additional shares of the Company upon meeting certain milestones which are contingent on entering into active service agreements with new pharmacies. The contingent consideration was recognized as a liability based on the estimated probability of occurrence over five years. To derive the value of the contingent consideration, the expected milestones were assessed probabilities by management.

The allocation of the consideration to the fair value of the net assets acquired at the date of acquisition is as follows:

Intangible Assets	9,960,784
Non-controlling interest	<u>(4,880,784)</u>
	<u>5,080,000</u>

The fair value of the contingent consideration is based on management's preliminary assessment at the date of acquisition and is subject to change. Refer to Note 19 for more detail.

(ii) NAC Bio Inc. ("NAC Bio")

On May 23, 2018, the Company invested \$1,000,000 into NAC Bio, a separate legal entity established to advance clinical research in the medical benefits of cannabis in the treatment of chronic disease and illness. In connection with the closing, the Company invested an initial amount of \$400,000 and has contributed the remaining \$600,000 as at May 31, 2019. Upon closing, NAC held a 57.1% stake in NAC Bio. Accumulated Other Comprehensive Loss attributable to NAC's non-controlling equity interest in NAC Bio was \$428,571 as of August 31, 2018.

(iii) Green Co

On May 25, 2018, the Company subscribed for a \$1,850,000 secured convertible debenture of The Green Company Ltd. ("NewLeaf"). The loan was extended to NewLeaf for the capital expenditure required to build out recreational cannabis retail stores in the province of Alberta. The loan bore interest at 5.45% per annum and was due on or before May 25, 2020. On August 22, 2018, the Company elected to convert the Convertible Debenture into common shares of NewLeaf. As a result of the transaction, the Company held a 9.9% equity interest of NewLeaf's outstanding common shares as at August 31, 2018. On September 10, 2018, the Company exercised an option to acquire all of the shares of New Leaf not already owned by the Company for 23,582,000 shares in escrow and \$5,895,500 cash pursuant to the terms of an option agreement between the Company, New Leaf and all of the shareholders of NewLeaf. The consideration held in escrow is to be released to the former shareholders of NewLeaf upon the satisfaction of receiving cannabis licenses for up to 25 retail locations.

The shares held in escrow were recorded as equity based contingent consideration. The achievement of receiving cannabis licenses was assessed probabilities by management which were then discounted to present value in order to derive a fair value of the contingent consideration. The amount of contingent consideration for the period is \$10,702,874 and the fair value of cash transferred and still held in escrow amounts to \$2,594,020 and is classified as restricted cash. As at May 31, 2019, a total of 14 cannabis licenses have been obtained and the fair value of share capital amounting to \$10,477,584 has been recognized for the period. The Company has accounted for this transaction as a business combination under IFRS 3 as the group of assets acquired met the definition of a business. The following table summarizes the fair value of the net assets acquired.
